

# MOLETTO DISTILLATO D'UVA

Taste this pleasant and enjoyable after dinner drink!

Distillato D'Uva is made by gently pressing Prosecco and Riesling grapes, which have been fermented at controlled room temperatures and then, distilled in a vacuum in order to preserve the soft, full bodied and intense aromas.

It has a velvet bouquet, a rich and agreeable scent of ripe fruit, and is deliciously well-balanced. This exceptional product is not technically a grappa, because it is made from freshly fermented wine and not from pomace. This process makes a very pleasant, aromatic, floral and enjoyable after dinner drink.

## WINE ENTHUSIAST—Best Buy

Medium body, packed dense mouth feel. Pleasant sweetness. Soft warmth. Beautiful floral flavors with apples and nectarines. Wonderfully balanced with a slow warm finish and cool mintiness.
