

# PIETRAFITTA

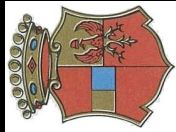

## Vernaccia di San Gimignano DOCG

Although, one of the few DOCG white wines from Italy, Pietrafitta Vernaccia was one of Italy's first DOC wines. Pietrafitta has combined new and modern wine-making techniques with age old traditions to produce the best Vernaccia possible. This wine is fresh and fruity but exhibits the full bodied character associated with the Vernaccia grape. Pietrafitta Vernaccia is a very versatile food wine that will accompany many dishes. (12% Alc. by vol.)

## Chianti—Colli Senesi DOCG

The Sieneese Hills growing district produces some of the finest Chianti wines from the region and is almost always more affordable than Chianti from the neighboring Classico district. This Chianti is produced in a fruit forward style; easy to drink yet with the complexity and structure of the Sangiovese grape. (12.5% Alc. By Vol.)

# PIETRAFITTA

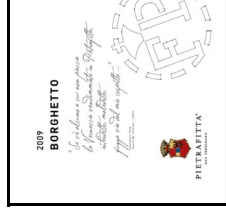

## La Sughera Rosso DOC

This wine is grown in a vineyard where cork trees used to grow: “Sughero” means cork. This premium red wine is made from select Sangiovese grapes with some Merlot added. It is then aged in small oak barrels to give complexity and balance. Enjoy this wine at a fraction of the price of most “Super Tuscan” wines. (12.5% Alc. By Vol.)

## Borghetto Vernaccia di San Gimignano DOCG

This wine is produced from grapes grown and selected from the Borghetto vineyard on the Pietrafitta estate. This particular vineyard consistently produces grapes of a higher quality than the rest of the estate and is therefore vinified separately. The wine has a more pronounced flavors, a fuller body and is more complex than the regular Vernaccia.

## Vin Santo

This is produced using the best Trebbiano and Malvasia grapes, left to dry for several months. After pressing, both the fermentation and maturing takes place in small casks for a minimum of five years. It is offered to the consumer after a six month period of bottle refinement. This mellow dessert wine is smooth with hazelnut finish.
